

# Mantras for Mental Healing

The mental body is a material organism which has its anatomy and its occult ultra-physiology.

—Samael Aun Weor,

*Esoteric Medicine and Practical Magic*

When the sicknesses of the mental body  
crystallize in the physical brain, then  
madness is the outcome.

We study within the supra-sensible  
worlds the anatomy and physiology of  
the internal bodies of the human being.

The mantra in order to cure the sicknesses  
of the mental body is:

S M HON...

This mantra must be vocalized daily for one  
hour. The disciple must invoke daily the  
Archangel Raphael and Hermes  
Trismegistus, supplicating them to heal his  
mental body.
